■ High visibility complex with **easy access to Central Expressway and Highways 101 and 880**. Heavy traffic counts on Lafayette Avenue with over 29,000 cars daily.

PROPERTY HIGHLIGHTS

980-988 Walsh Avenue is located in the city of Santa Clara, CA, the heart of Silicon Valley. In addition to a 150-year-old heritage, it's home to some of the world's largest high tech companies, including Yahoo, Intel, Nvidia, McAfee, National Semiconductor, Applied Materials, Cisco, and many others. Numerous companies have made Santa Clara their home due to its public transportation system, strategic location near major freeways, and the San Jose International Airport. Companies are also drawn to its cost efficient municipal utilities services, which are city-owned under Silicon Valley Power and provides savings up to 40 percent on electricity alone.

Santa Clara has a diverse population of over 127,000 people and over 1.9 million in the county. The city has a strong workforce with 42.4 percent of residents who are 25 years or older and have at least a bachelor's degree, while 16.6 percent have graduate level or higher professional degrees. Leading Universities in the area such as Santa Clara University, Stanford, and San Jose State create a constant pool of talent for companies to recruit from. While there is more to explore and to learn about the area, Santa Clara is a premiere American city to do business in!
