CATTLE PRODUCTION

Cattle raisers will appreciate the many natural and manmade features that distinguish this ranch from others in the area. The current owners run over 100 head of cattle on the ranch and have consistently generated superior yields from livestock. Perimeter fencing and an ample amount of cross fencing create an ideal scenario for an effective rotational grazing program, and Hurricane Creek affords excellent access throughout the ranch for supplemental feeding and herd maintenance. Furthermore, the ranch contains metal working pens and improved grass fields to supplement cattle production. Several earthen stock tanks provide ample surface water, and a water well could be put into operation during times of excess drought. Co-op electricity is available at multiple points on the ranch, affording the opportunity for drilling additional water wells for irrigation and home use.

A LICENSE HOLDER CAN REPRESENT A PARTY IN A REAL ESTATE TRANSACTION:
