The **Sunrise Town** C E N T R E project is a mixed retail, restaurant, office and medical development located on one of the best parcels of land in Bismarck, North Dakota.

The project includes Phase I and Phase II for a master plan 72 acre site with four side perimeter access at the northeast corner location of Century Avenue and Centennial Road. I-94 Exit 161 is an exciting fast growth area of Bismarck. This prime new development is on the northeast corner of Centennial Road and E Century Avenue. Sunrise Town Centre has great access, visibility to capture both neighborhood and interstate traffic. This rapidly developing commercial hub and residential growth area offers tremendous opportunity. The roadways, utility infrastructure, new schools, easy access to I-94 and ample land for continued development.

Phase I is complete and offers lots for sale. The Developer will deliver lots grade to drain, city services, asphalted curb and gutter and roads. The property is sold per square foot plus city assessed specials for road, curb, street lighting and City storm water. All lot onsite storm water management is the Buyer responsibility.

Traffic counts on the corner intersection are some of the highest in the Bismarck market. These traffic counts will continue to increase significantly with continued residential growth and the addition of the new 62 acre Bismarck public high school, Legacy High School, which enrolls 1,150 students.

Residential growth is expanding around the site. Higher density growth is occurring to the west and south of the site and single family continues to grow to the East. North site is in an area considered as a going home route with a vast amount of existing residential to the northeast and northwest.

The development is divided into Phase I at 40 acres and then Future phase II at 32 acres. Convenience retail, restaurant pads, office and medical. Each of these phases are designed to enhance the value of the other attracting people to the development and providing them a reason to stay is a prime factor in our design concepts.

The project will be built and maintained to a very high standard with development easements, conveyances and restrictions available to prospective buyers.
