ABOUT RAIL LOGIX

Rail Logix is a privately-owned rail yard operator specializing in the storage, handling and switching of railcars for users in the petrochemical, energy, agricultural and logistics industries. Established in 2006, Rail Logix combines world-class railcar handling, switching, and staging services with augmented services such as railcar cleaning, maintenance, and transloading. Designed for maximum efficiency, the Rail Logix's rail yards provide reliable, on-demand release of its users railcars to interchange with Class I carriers a minimum of five (5) days per week in a safe and economical manner.

Our state-of-the-art facilities are equipped with a web-based yard management system and AEI readers which provide real-time inventory control of each customer's product. At a moment's notice, Rail Logix's yard management system can generate electronic rail activity reports for its valued customers on a daily basis. In addition, each of Rail Logix's access-controlled, rail yard facilities are monitored under constant video surveillance 24 hours a day, seven days a week.

Strategically located in both Texas and Louisiana, Rail Logix is poised to become the premier provider of railcar storage and handling solutions in the Gulf Coast region and beyond. With exciting new opportunities on the horizon, Rail Logix looks to continue its tradition of service excellence and commitment to safety while surpassing expectations as a conscientious and responsible neighbor in the communities it serves.

RAIL LOGIX AMERIPORT

Located within the expansive 835-acre Ameriport Industrial Park in Baytown, Texas. With more than 55 miles of total track, Rail Logix Ameriport accommodates 2,250 Rail Cars (expandable to 3,000+) with more than 380 rail car spots of interchange track. Via common ownership, Rail Logix Ameriport and Ameriport Industrial Park offer unique synergies in the coordination and delivery of rail cars to Ameriport's tenants, enabling increased efficiencies and reduced operating costs. Through their partnership with Rail Logix, on-site service providers will safely coordinate the transloading of product, and the cleaning, maintenance and staging of outbound rail cars on the interchange as a turnkey service, keeping its customer's rail cars ready for action.

Information About Brokerage Services

Texas law requires all real estate license holders to give the following information about brokerage services to prospective buyers, tenants, sellers and landlords.

TYPES OF REAL ESTATE LICENSE HOLDERS:

- **A BROKER** is responsible for all brokerage activities, including acts performed by sales agents sponsored by the broker.
- **A SALES AGENT** must be sponsored by a broker and works with clients on behalf of the broker.

A BROKER'S MINIMUM DUTIES REQUIRED BY LAW (A client is the person or party that the broker represents):

- Put the interests of the client above all other, including the broker's own interest;
- Inform the client of any material information about the property or transaction received by the broker;
- Answer the client's questions and present any offer to or counter-offer from the client; and
- Treat all parties to a real estate transaction honestly and fairly.

A LICENSE HOLDER CAN REPRESENT A PARTY IN A REAL ESTATE TRANSACTION:

AS AGENT FOR OWNER (SELLER/LANDLORD): The broker becomes the property owner's agent through an agreement with the owner, usually in a written listing to sell or property management agreement. An owner's agent must perform the broker's minimum duties above and must inform the owner of any material information about the property or transaction known by the agent, including information disclosed to the agent or subagent by the buyer or buyer's agent/

AS AGENT FOR BUYER/TENANT: The broker becomes the buyers/tenant's agent by agreeing to represent the buyer, usually through a written representation agreement. A buyer's agent must perform the broker's minimum duties above and must inform the buyer of any material information about the property or transaction known by the agent, including information disclosed to the agent by the seller or seller's agent.

AS AGENT FOR BOTH – INTERMEDIARY: To act as an intermediary between the parties the broker must first obtain the written agreement of *each party* to the transaction. The written agreement must state who will pay the broker and, in conspicuous bold or underlined print, set forth the broker's obligations as an intermediary. A broker who acts as an intermediary:

- Must treat all parties to the transaction impartially and fairly;
- May, with the parties' written consent, appoint a different license holder associated with the broker to each party (owner and buyer) to communicate with, provide opinion and advice to, and carry out the instructions of each party to the transaction.
- Must not, unless specifically authorized in writing to do so by the party, disclose:
 - That the owner will accept a price less than the written asking price;
 - That the buyer/tenant will pay a price greater than the price submitted in a written offer; and
 - Any confidential information or any other information that a party specifically instructs the broker in writing not to disclose, unless required to do so by law.

AS SUBAGENT: A license holder acts as a subagent when aiding a buyer in a transaction without an agreement to represent the buyer. A subagent can assist the buyer but does not represent the buyer and must place the interests of the owner first.

TO AVOID DISPUTES, ALL AGREEMENTS BETWEEN YOU AND A BROKER SHOULD BE IN WRITING AND CLEARLY ESTABLISHED:

- The broker's duties and responsibilities to you, and your obligations under the representation agreement.
- Who will pay the broker for services provided to you, when payment will be made and how the payment will be calculated.

LICENSE HOLDER CONTACT INFORMATION: This notice is being provided for information purposes. It does not create an obligation for you to use the broker's services. Please acknowledge receipt of this notice below and retain a copy for your records.
