

OUR STORY

Creative Coworking is a woman-owned network of workspaces, meeting places, and event spaces founded by Angela Valavanis. Our third Chicagoland location - in West Town - offers personalized private offices, reserved desks in a shared space, and conference rooms available for hourly usage. We aim to provide a professional environment that best suits your work style and your business needs. Our spaces foster creativity and productivity in a calm, comfortable environment. Once you're a member, you're part of our community.
