COMMENTS: Would be an ideal C-Store location. An engineer's assessment of the property indicates the subject would accommodate a 5,000 sq. ft. rectangular shaped building with gasoline pumps. This takes into account the two easements that run along the southern boundary and set-backs from F. M. 2001 and CR 119. Located in the county. (Buda ETJ). If development can be done with septic, (abundance of area for septic field), the developer could bypass zoning and annexation into. Buda Sewer is available from Buda; it is located in a manhole across CR 119 in Lennar's Stonefield Subdivision. In order to obtain sewer, the property would have to be annexed by Buda and be zoned, subdivided, and etc.
